

## Getting around

Burton Pond is located three miles south of Petworth and one mile east of Duncton. The best way to experience this 56 hectare reserve is to start at the mill, where limited parking is available. On a certain number of days cream teas are served from the mill.

The entire nature trail is on level ground with only one stile at Crouch Farm. The nature trail includes surfaced and unsurfaced footpaths, minor roads and a boardwalk over the wettest areas.
